

Logging In the Afinity Customer Portal

Here are tips to help get you connected

- If you're a current portal user, you can access the new portal by choosing **IT Provider** and logging in using your existing credentials.
- Office 365 customers may also choose **Microsoft** to login with your email address and password.
- The **Email** option sends a one-time-use token that will automatically expire after an hour.

Having issues? Send an email to portal@afinity.com for assistance.
